

**Degreaser PRO** is a specifically developed product to remove oils, and greases

**Degreaser PRO** is a special blend of aliphatic hydrocarbons.

Orange color / Orange aroma

It is particularly effective to remove PAO, Groups I,II,III oils bases, and heavy greases.

#### How To use

##### Spray

1. Spray Degreaser Let it work for 2 to 5 minutes.
2. **Dry** with a cloth or compressed air.

 **Do not spray** on disk brakes.

##### Dipping

Thanks to its well-balanced evaporation rate, it is perfect to clean parts by dipping. Just fill an adequate size container with the product, dip the parts and let Degreaser Pro make the job.

Rest of the product can be used again several times. It is recommended to filter after 4-5 uses depending on the cleaned parts.

##### ULTRASOUND BATHS

Degreaser pro, can be used as cleaning liquid in ultrasound baths.

#### Degreaser PRO Main features

**Efficient:** A small quantity is enough to clean many parts.

Using i ton dipping or ultrasound allows **reusing** it several times. .

**Safe:** Degreaser Pro, does not attack aluminum or carbon fiber parts.

**Odorless:** Unlike most of hydrocarbon based degreasers, Degreaser Pro has no unpleasant smell.

**NOT Flammable.**
